U.S. OFFERED 99-YEAR LEASES ON BRITISH AIR, NAVAL BASES IN WEST

Britain's Plane Output Exceeds Reich: Premier Appeals For U.S. Ships

Today's War Moves

By J. W. T. MASON
British United Press Staff
Exclusive to Edmonton Bulletin

ITALY'S complete victory in British Somaliland must be considered a tribute to Mussolini's political acumen, and emphasizes the Italian principle of warfare, which risks attack only when the enemy is numerically inferior. The military elements involved are insignificant. The Italians already in Eritrea could have commanded the Red Sea and the Gulf of Aden as well as the British base of Aden itself, if they had possessed naval strength and sufficient air power in that area.

British Somaliland gives no better opportunity than Eritrea for such operations. The Italians will be unable to influence the course of military events any more effectively in the Gulf of Aden and the Red Sea than before. The whole of Italian East Africa, including Somaliland, Eritrea and Ethiopia is isolated by nearly 1,000 miles of British controlled land and desert from the Mediterranean.

Politically, however, Mussolini has a success in his credit which will be advantageous at home and will add some needed Italian prestige to the totalitarian partnership.

Mussolini's heretofore can talk Hitler with less sense of inequality. There have been recent signs of

NAZI AIRCRAFT SCATTERED IN NIGHT FORAYS

Enemy Plane Shot Down Into Sea By British Fighters

ON ENGLAND'S SOUTHEAST COAST, Aug. 20.—Three waves of German planes attacked inland points in a bombing foray on southeastern England today, and then roared back toward France.

LONDON, Aug. 20.—German planes were believed to have flown over a southeast inland town after daylight this morning following night raids over a wide area of Britain.

The air ministry announced today that "an enemy aircraft which attacked a Suffolk post town this morning was intercepted by our fighters and shot down into the sea."

The air ministry also announced this morning that five German planes had been shot down in yesterday's scattered forays over England and South Wales and three British fighters were lost.

Training Centre
LT.-COL. E. R. KNIGHT, V.D., of Calgary, who will command the military training centre at Camp Bow, is now at the Prince of Wales Armoury, recruiting a headquarters staff of officers, instructors, cooks, orderlies, and others for the centre. Instructors who will become N.C.O.s will first be sent to the infantry training school at Calgary for a course before being placed on duty at the centre. They will be enlisted on a C.A.S.F. basis and will receive private's pay and allowances during their course, with subsequent increases as they are allotted their instructional posts and ranks at the centre.

APPEAL MADE TO CITIZENS TO REGISTER

Listing Slows Up Tuesday Morning—48,000 Passed Through

Appeal was made Tuesday afternoon by Registrars J. H. Fulton and Joseph Driscoll to Edmontonians to get to registration booths Tuesday afternoon and throughout Wednesday to complete the nation-wide stock-taking in the Edmonton ridings.

Registration Tuesday morning fell off considerably from the fast tempo set on Monday, and registrars are apprehensive that if citizens delay registration until the last minute considerable congestion and delay will be experienced at registration centres.

BIG DROP
Numbers of registrants presenting themselves Tuesday morning were very small in most ridings, in many of the polls a falling off of approximately 80 per cent being recorded.

Registration in the rural polls of the Edmonton West riding was progressing satisfactorily, with 25,000 returning a 900 total for Monday.

With scarcely a hitch during the 14 hours of Monday's registration 35,000 Edmontonians filled out

GERMAN-HELD AIR BASE IS FIRED BY R.A.F.

LONDON, Aug. 20.—The German-held bomber base at Omer, north of France, was "blasted in flames" when British Blackburn bombers made a surprise attack last night, starting many fires and causing several explosions, the air ministry announced tonight.

LONDON, Aug. 20.—Royal Air Force bombers last night attacked the German naval base at Kiel and 30 airbases in Germany and German-occupied territories while in daylight raids yesterday an air-drome at Flushing and an anti-aircraft position near Amsterdam were attacked, the air ministry announced tonight.

Three British planes did not return.

German War Plane Crashes In Erie: Crew Is Interned

DUBLIN, Aug. 20.—Ere's department of defence announced tonight that a German plane had crashed near Claghane, county Kerry, and that the crew of six had been captured. The crew, all of whom were members of the Luftwaffe, were being held in a camp near Claghane.

Air Bases In Canada, Alaska Highway Urged

U.S. Congressional Sources Suggest Projected U.S.-Canadian Defence Board Undertake Tasks Promptly

By MACK JOHNSON

British United Press, Exclusive to The Edmonton Bulletin
WASHINGTON, Aug. 20.—Congressional sources urged today that the projected United States-Canadian defence board make its first order of business immediate establishment of joint air bases in Canada and construction of a \$25,000,000 west coast highway to Alaska.

Prompt undertaking of these tasks was proposed by Rep. J. Buell Snyder, D. Pa., chairman of the house appropriations sub-committee in charge of army bills, and Anthony J. Dimond, Alaskan delegate to congress.

They voiced their demands as President Roosevelt considered names of possible appointees to the joint board. He was expected to announce his selections within the next two or three days, so that the mutual defence program could get under way without delay.

Some observers predicted that his appointees would include Admiral Harold G. Stark, chief of naval operations; Rear Admiral John H. Towers, chief of the navy bureau of aeronautics; Gen. George C. Marshall, army chief of staff; and Maj. Gen. Henry H. Arnold, chief of the army air corps.

Authorities refused to discuss contemplated plans or reveal what steps the board might take pending actual designation of its members.

At Ottawa, the Canadian government is speedily inaugurating the joint defence effort by naming naval and military attaches to the present agreement.

Reports have been current that President Roosevelt planned to ask Attorney General Robert T. Jackson to render an opinion upon the legality of such sales if the chief of naval operations declines the sales involved as surplus equipment. Justice department officials said the President thus far has not been asked.

The present war has provided only the stimulus for the creation of the board and for the declaration by the governments of the two countries that they will permanently ally themselves to protect their territories from invasion only.

GREEKS ARE ASSURED OF TURKEY'S AID

ATHENS, Greece, Aug. 20.—Turkey was reported in informed quarters to have promised Greece to come to her aid in the event this country is attacked by Italy. This report was made after the Turkish minister to Greece called on Premier John Metaxas.

However, officials remained silent on the significance of the minister's visit.

A letter press campaign against Greece has been under way in Italy since an "Albanian" patriot, Dini Hage, was deported near the Albanian-Greek border over a week ago.

Aggravation has been added to the Greek situation by the fact that the Albanian-Greek border has been closed since the war, a situation which has caused the Albanian-Greek border to be closed since the war, a situation which has caused the Albanian-Greek border to be closed since the war.

At the same time, the Albanian-Greek border has been closed since the war, a situation which has caused the Albanian-Greek border to be closed since the war.

U.S.-CANADIAN DEFENCE BODY IS PERMANENT

Long-Sighted Policy For Peace and War Is Planned

By GRANT DENTON

Edmonton Bulletin Ottawa Bureau
OTTAWA, Aug. 20.—Pending further explanation of the United States-Canada defence agreement, two points are assuming increasing importance.

The first point, as seen in the light of the agreement in terms of the war situation as it now exists, is a short-sighted policy. The second point, as seen in the light of the agreement in terms of the peace situation, is a long-sighted policy.

The first point, as seen in the light of the agreement in terms of the war situation as it now exists, is a short-sighted policy. The second point, as seen in the light of the agreement in terms of the peace situation, is a long-sighted policy.

Their Cross To Bear

When eight-month-old Carol Nichols comes up, she will look with mingled pride and sadness at this picture. For seated on her mother's lap, she wears the Victoria Cross posthumously awarded to her father for "most conspicuous gallantry" with British Grenadier Guards during the evacuation of Dunkirk. Carol George made the presentation of a private soldier's greatest life salute.

Nazi Naval Officer Escapes From East Internment Camp

OTTAWA, Aug. 20.—Brig.-Gen. E. De B. Panet, director of internment operations, is personally conducting an investigation into the escape of W. Koche, a German prisoner, from a northern Ontario internment camp, an official of the state department said today. General Panet will arrive at the camp today to lead the investigation.

SOMEWHERE IN ONTARIO, Aug. 20.—Search widened tonight for an escaped German prisoner of war and extended to border points in the belief that he may attempt to enter the United States. No substantial clue in the prisoner's whereabouts had been reported more than 36 hours after he furnished his way to freedom from a closely guarded prison camp in northern Ontario.

Meanwhile, military authorities are investigating how a radio broadcast set was smuggled into the camp where an undisciplined escapee of Germany was confined. The set was discovered last night, a few hours after W. Koche, a German officer, escaped through a 10-foot tunnel. It was hidden under the eaves of a building in which the prisoner was confined.

Addressing the House after Prime Minister Mackenzie King returned to inspecting Anglo-American volunteers training along the "Atlantic Wall" in the British Isles, the Prime Minister said:

"If that tunnel should lead to the sea, it would have been a most serious blow to the war effort. It would have been a most serious blow to the war effort. It would have been a most serious blow to the war effort."

At the same time, the Albanian-Greek border has been closed since the war, a situation which has caused the Albanian-Greek border to be closed since the war.

Cabinet Studies Gardiner's Stand On Grain Issue

Provincial cabinet ministers went into conference here Tuesday to consider the effects of a statement Monday by Hon. J. G. Gardiner, Federal minister of agriculture, that provincial and Dominion governments must solve the problem of providing for western farmers the coming winter.

Mr. Gardiner's statement followed submission of proposals at the recent Quebec conference at Winnipeg last Friday for obtaining cash advances for farmers against grain ahead on their farms.

The government's offer is believed to have made his way to freedom.

Duel Of Long-Range Guns Is Considered Possible By Experts

By SAM ROBERTSON

Canadian Press Staff Writer
LONDON, Aug. 20.—A duel of long-range guns without parallel in military history, firing devastating if inaccurate barrages into the United Kingdom and the German-held territory on the other side of the narrow spit of water separating them is considered possible.

A high military source suggested today that a new phase of this "war of attrition" was now open with the Germans trying to shell London with a super gun-Bertha.

RAIL TRAFFIC IN FRANCE IS NOW SUSPENDED

VICHY, France, Aug. 20.—All railroad traffic between occupied and unoccupied France has been suspended by order of German authorities. It was officially announced today. No reason was given for the action.

Highway traffic across the zone frontier between Tours and the Swiss border still is permitted.

Similar sudden interruptions of traffic by German authorities in the past have been interpreted as signs of impending military developments. Passenger traffic on German railways was suspended just before the invasion of the Low Countries last May.
